THE OLYMPICS OF WATERSKIING...

Marine World/Africa USA is proud to welcome over 50 of the world's top men and women athletes in the incredible sport of barefoot waterskiing to the **SECOND WORLD BAREFOOT WATERSKIING CHAMPIONSHIPS**. Representing 14 different nations, these individuals will be competing not for money, but for the coveted title of World Champion.

The four-day event will begin with the entire field competing. After two days of preliminary rounds, only the top 12 men and top 8 women from each event will advance into the finals. Men compete in all four barefooting events — wake slalom, tricks, jumping, and starts — while women compete in three (jumping not included).

We hope that during your day at Marine World you will take the opportunity to see some of this incredible action at one of the two tournament sites. Barefoot jumping and starts methods will be held in the Marine World waterski lagoon while the tricks and wake slalom events will take place on a longer course behind Marine World. Shuttle buses are provided for your convenience and will be departing from the area directly in front of Marine World's front admission gates.

This event is being graciously sponsored by San Miguel Beer, the classic beer of the Pacific. Brewed and bottled in the Phillipine Islands, San Miguel's light and dark beer products are one of California's most popular imports today.

◀ **U.S. NATIONAL CHAMPION** — Mike Seipel, two-time National Champion from Brown Deer, Wisconsin, is the U.S. hopeful for the 1980 World Title. With teammate Ron Scarpa (Winter Haven, Florida), these two barefooters hold every U.S. record in the sport of barefoot waterskiing.

WORLD CHAMPION ▶ — Brett Wing, holder of 11 Australian National Titles, led his country to victory in the first World Barefoot Waterskiing Championships in 1978. Wing, who has been skiing in Marine World's Water Ski & Boat Show during the 1980 season, will be defending his World Champion title against 50 of the world's top competitors.

DESCRIPTION OF EVENTS AND SCORING

Barefoot waterski competition is comprised of four separate events — wake slalom, tricks, jumping and starts — which are judged on a point system. The World Championship title is awarded to the individual who obtains the most points overall, and to the country who has obtained the best three overall scores by men or women in each event. In addition, each event will have an individual champion. (Scores can be obtained from either the preliminary or final round, whichever is higher.)

WAKE SLALOM — Each skier will be allowed one run, or pass, in which he will try and cross the boat wake in a standing position as many times as possible within a 20-second time limit. Points will be scored for number of times wake is crossed and for method of crossing (i.e. backwards, on one foot, etc.)

TRICKS — Each skier will receive two 20-second passes in which he will attempt various tricks (i.e. tumble turns, rope in mouth, 360° turns, etc.) All trick runs are individually pre-set by the competitor and must be completed in the order previously listed. Points will be awarded on degree of difficulty of the particular tricks selected.

JUMPS — Each skier will be given two opportunities to jump for distance off a specially designed barefoot jump ramp. (The ramp is 18" high, 7' long, 4' wide and covered with a polyurethane surface.) Skiers may choose their own boat speed (not to exceed 67 kph/41.6 mph). The longest distance jumped will be scored with additional points of 30% being added if skier lands on his feet only, not touching the water with any other portion of his body.

STARTS — Each skier will receive three attempts in which to try different starts. Points will be awarded according to varying degrees of difficulty of the starts (i.e. beach start, deep water start, flying dock start). All three attempts will be scored.

SCORES TO BEAT

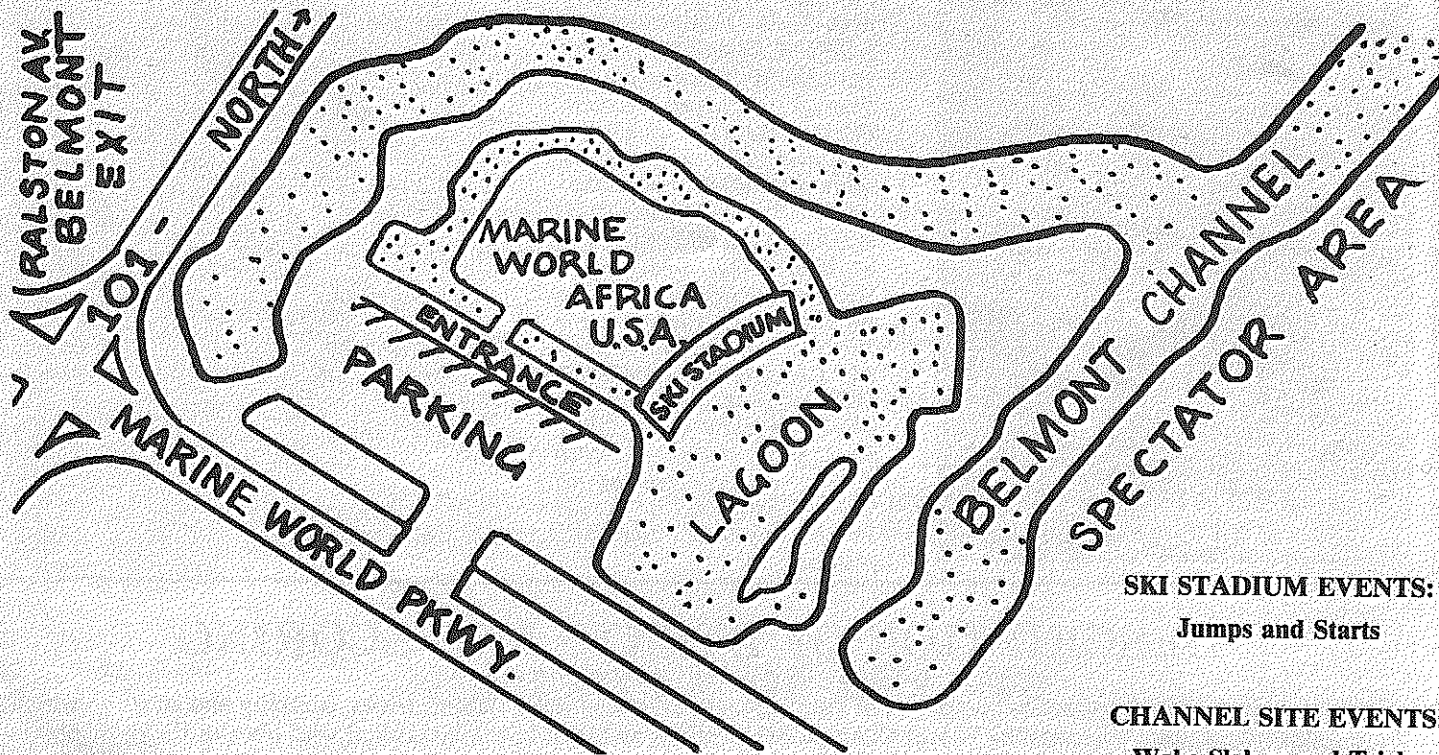

Since the first World Barefoot Championships held in Canberra, Australia in 1978, many barefooting records have been broken. Below are listed the current world records and world record holders.

EVENT	SCORE	RECORD HELD BY	COUNTRY
WAKE SLALOM	720	John Stekelenburg / Neil Tomlin	Australia Australia
TRICKS	3265	Brett Wing	Australia
JUMPING	15.35 m/15' 4½"	Paul Jones	Australia
STARTS	780	Brett Wing	Australia

WOMEN'S RECORDS

In the women's events, Australian Kim Lampard holds all records. Wake slalom — 420 pts.; Tricks — 1365 pts.; Starts — 545 pts.

CHANNEL SITE EVENTS
Wake Slalom and Tricks

Shuttle buses are available between Marine World and the Channel site during regular park operating hours. Shuttles depart from "Entrance" area listed on map above.

Marine World/Africa USA, a unique showplace for hundreds of exotic animals and marine mammals, is also home of the West Coast's only Water Ski & Boat Show. Over the years, this water ski arena has become one of the premier sites for major tournament competition. The Coors International Water Ski Jumping Championships, an annual event that has grown in popularity to become the largest and most prestigious water ski competition of its kind in the world, is just one example of this. In addition, Marine World's man-made lagoon (1800-feet long by 500-feet wide) has also been home to the First Annual San Miguel International Barefoot Championships, many regional waterski tournaments and various special events such as the Great Milk Carton Boat Races. This year, Marine World/Africa USA is proud to represent the United States in hosting the 2nd World Barefoot Waterskiing Championships.

The channel site behind Marine World was chosen for this event because of its easy access from the park and for the long, straight channel it provides, making it an ideal course for the tricks and wake slalom events.
